HOW THE PROGRAM WORKS

From classroom to live case processing in 2 months

MONTH 1 — Certificate 1

Theory Classes

Live online sessions taking you from PV fundamentals and regulations to ICSR processing, signal detection and aggregate reports.

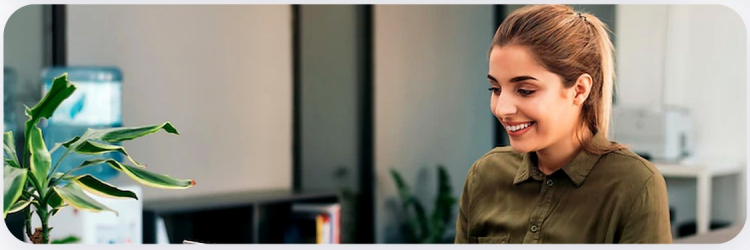

→ **Course Completion Certificate**

MONTH 2 — Certificate 2

Project Internship

Hands-on practical training: process 100 live Adverse Event cases end to end on simulated ICSR software (similar to Argus, ARISg & Veeva Safety) across four projects.

→ **Internship Certificate**

Your internship: 4 projects, 100 live AE cases

Integrated ICSR processing: all four projects run simultaneously, just as they do in a real drug safety team.

1
PROJECT 1
Case Intake & Triage

2
PROJECT 2
Data Entry & Medical Coding
MedDRA & WHO-DD

3
PROJECT 3
Causality Assessment
WHO-UMC & Naranjo Scale

4
PROJECT 4
Narrative Writing, QC & Case Closure

Course at a glance

MODE **Live online classes**	CLASS TIMINGS **6 PM – 7 PM**	DAYS **Mon, Tue, Thu & Fri**
JOB READINESS **2 mock tests and 2 mock interviews**	SOFT SKILLS **5 hours of HR and non-technical classes**	NEXT BATCH **Starts 24 November**

Complete syllabus

MODULE 1 Pharmacovigilance foundations

CORE CONCEPTS

PV / drug safety overview · Responsibilities · Active PV / solicited reporting · Passive PV / spontaneous reporting · AE, ADR, SAE, SUSAR · Seriousness criteria · Valid, invalid & no case · AE grades · ADR types · De-challenge & re-challenge

SPECIAL CASES IN ICSR

Abuse · Misuse · Off-label use · Medication error · Overdose · Pregnancy cases

DRUG TRAGEDIES

Chloroform · Sulphanilamide · Thalidomide · Coldrif syrup incident

AE REPORTING SYSTEMS

MedWatch · Yellow Card · Blue Card · Lareb · SARRF

GUIDELINES

21 CFR 312 & 314 · Good Vigilance Practice (GVP) · ICH E2A–E2F · CIOMS modules

MODULE 2 ICSR processing & safety operations

CASE PROCESSING

Case intake · Triage · Case nullification · Case validity · Data entry · Medical coding · Causality (WHO-UMC & Naranjo) · Narrative writing · Day 0 · IBD

REGULATORY & RISK

Expedited & periodic submissions · Signal detection · Risk management plan · Case dissemination · Product safety labels · Prescription event monitoring

AGGREGATE REPORTS

DSUR / ASUR · PSUR · PADER · PBRER

CODING DICTIONARIES

MedDRA · WHO-DDE · FDA COSTART · WHO-ART

SAFETY DATABASES & TOOLS

Argus · ARISg · Sapphire · LifeSphere MultiVigilance (LSMV) · Veeva Safety · FAERS · VigiBase · PvPI · WHO-DMP

Capstone internship: 4 PV projects · 100 live cases

HANDS-ON SOFTWARE PRACTICE

Case intake → Triage → Data entry → Coding (MedDRA & WHO-DDE) → Causality assessment → Narrative writing → QC → MER → Case closure

Note: Software hands-on practice is done on simulated ICSR software, similar to Argus, ARISg and Veeva Safety.

ADDITIONAL BENEFITS

More than a course: a launchpad for your PV career

- ATS-friendly resume
- Training by the founder
- ISO & IAO certifications
- Study materials
- Placement guidance
- Practical projects
- LinkedIn profile
- 1-year job portal access
- Student portal
- Project software access
- Instalment payment option
- HR & non-tech classes (5 hrs)
